

Most welcome!

Since the last decade, Morocco has seen a significant growth in its air traffic links by signing the Open Skies Agreement, which subsequently boosted the tourism sector resulting in an increasing demand for ground handling and cabin crew members.

The idea of investing and sharing my 10 years expertise came to my mind, so much so that I ended up by founding **AEROSUP** in order to qualify a new generation of cabin crew and passenger service agents with great values and high ethics.

Therefore, we have been distinguished locally and overseas thanks to our trainees who are working now for great national and international airline and maritime companies. They have enhanced **AEROSUP**'s image by their great commitment and competency at a large scale.

You can rely on us to provide you with agents or crew that are reliable enough to meet the challenges of the tourism industry, offer a great customer service and go beyond the expectations.

AEROSUP

Is well-known for its competencies, its demanding training policy, its performance and its unique outcomes.

The team of Aerosup's trainers are made up of highly experienced professionals who possess a profound knowledge of the airline and maritime field. They all convey the fundamentals pertinent to each job and applicable in the real field.

The pedagogy deployed by **AEROSUP** is based on the principle of "contract for success", and it offers a personalized follow up for its trainees.

TRAINING

AEROSUP offers a high quality cabin crew and handling agents training for airlines and companies that are looking for flexible and best value solution.

EXTRA-CURRICULAR EVENTS AND ACTIVITIES

At **AEROSUP**, we give a special attention to the involvement of our trainees in extra-curricular activities. .

In fact, studies require the best managers of today to be those who in their educational career take part in activities of charitable, associative, sportive, cultural and entrepreneurial actions.

Throughout the year, the trainees invest in project actions in the framework of their career.

Integration event

We always start by an integration event where we all share our dreams and aspirations. Sharing some moments of happiness today will make us share big challenges tomorrow. Our strong point will be always our team spirit.

The relooking shooting day

AEROSUP offers its trainees a day of beauty and style as a new start always deserves a new look.

Public speaking event

Has introduced, as a first initiative in Fez, a competition to boost the trainees performance in communication.

Pedagogical excursions

In order to enable our trainees to explore their environment with a cultural and professional vision

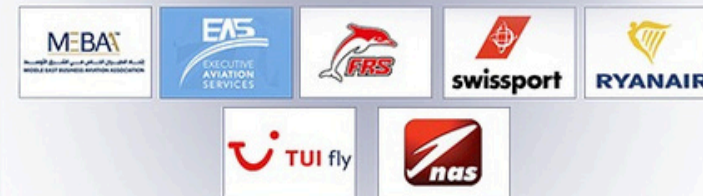

PROFESSIONAL INSERTION

Being appreciated by enterprises thanks to the precision of its education and the quality of its trainees, in just a short time, Aerosup has been able to develop strong partnerships with major employers in these fast-growing business sectors. Such a training recognition by professionals has guaranteed for the trainees of Aerosup school the chance to get immersed in the world of work.
